Be Productive Anytime, Anywhere

The iOTA One is a stylish, compact and versatile tablet that brings together the performance of a laptop with the flexibility of a tablet. The powerful Quad-Core Intel processor gives you the ability to explore all of the amazing features of the Windows 10 operating system. You have easy access to Microsoft Office Mobile applications, to maximise your productivity, or you can choose to surf the net and play all of the music and videos you love the most. Experience your digital assistant Cortana, allowing you to access information by talking or typing.

2 Amazing Devices in 1

The detachable keyboard, with sensitive touchpad and pinch to zoom functionality, gives you the convenience of having a portable, powerful and reliable laptop, or you can easily detach the keyboard to transform the iOTA One into a tablet with versatile capabilities.
