Open			
Open in new window			
Extract All			
Pin to Start			

3. Extract the content of the Zip file to "C:/Drivers"

~	Extract Compressed (Zipped) Folders
	Select a Destination and Extract Files
	Files will be extracted to this folder:
	C:\drivers Browse
	Show extracted files when complete

4. Right click the Start Icon and select "Device manager"

5. In Device Manager you should see devices with missing drivers under the "**Other devices**" heading

## 6. Right click an "Unknown device" and select "Update driver"

> 🕎 Network adapters	
<ul> <li>Other devices</li> </ul>	
📓 Unknown devi	
🕼 Unknown devi	Update driver
> 📮 Ports (COM & LPT)	Disable device
> 🚍 Print queues	Uninstall device
> 🖻 Printers	
>  Processors	Scan for hardware changes
> 📕 SD host adapters	Properties
> 🛐 Security devices 🔔	Toperaes

## 7. Select "Browse my computer for driver software"

8. Press "**Browse...**" and navigate to the "**C:\Drivers**" folder you just created from the zip file. Also make sure that "**Include subfolders**" is ticked

C:\drivers	~		Browse
------------	---	--	--------

9. Device manager will now scan and find the correct driver

10. Repeat for each missing device in device manager
